Objectives

- a) Stimulating the innovation process as a consequence of the implementation of the scientific research results and promoting Romania's international economic relations.
- b) Correlating fundamental research with economic policy decisions on the basis of the empirical analysis.
- c) Increasing the visibility and recognition of the Romanian research as well as the visibility of „Dimitrie Cantemir” Christian University through the Institute of Multidisciplinary Scientific Research and the Faculty of International Business and Economics.
- d) Integrating the Romanian research community in the activities of the international research community.
- e) Elaborating comparative studies investigating the gaps between the development needs and the levels already achieved in the priority areas.
- f) Identifying viable solutions to the world economic issues.
- g) Creating a transnational and interdisciplinary cooperation network and building effective partnerships in order to successfully participate at projects financed through EU programs (such as Horizon 2020).
